

- FruitFast Introduces Potent Fruit Liquid - Single Teaspoon Equals 4 Glasses of Cherry Juice

FruitFast makes whole fruit goodness available year round in condensed liquid form. CherryFlex Liquid's proprietary process includes the fruit's skin and pulp to ensure 100 mg of antioxidants in every spoonful.

TRAVERSE CITY, MI – The familiar saying “Less is More” is proving true with the introduction of a break-through dietary supplement product. After years of research and development, FruitFast® has unveiled CherryFlex Liquid Fruit Supplement – a condensed whole fruit product packed with antioxidants.

A single teaspoon of the potent CherryFlex Liquid is equivalent to four-32 oz glasses of tart cherry juice and is comprised of 100% Montmorency Tart Cherries, including the skins and pulp, which contain 100 mg of antioxidants in every teaspoon. No longer is it necessary to consume four liquid servings of fruit concentrate to benefit from this recognized dark-skinned super fruit.

It's the proprietary process the FruitFast company has developed that places this fruit product ahead of all others. Unlike powder pills, the FruitFast production process delivers a full complement of phytochemicals under normal digestion conditions in a bio-available form. Certificates of Analysis can be found on the website, www.brownwoodacres.com.

“This is another one of our all-natural products designed to deliver the power of fruit,” explains Steve deTar, Brownwood Acres, Inc. co-owner, the nutraceutical and functional food company that produces fruit softgels, all-fruit bars and now liquids for the natural food industry. All are produced and branded under the FruitFast label.

Only two ingredients are used in the liquid, no fillers and no artificial sweeteners. With 60 servings per 10 oz bottle, CherryFlex liquid:

- Offers the antioxidant power of four glasses (32 oz) of tart cherry juice in a single teaspoon.
- Helps maintain healthy joint and cardiovascular function.*
- Supports the immune system.*
- Helps maintain mobility and flexibility.*
- Contains natural melatonin to help regulate the sleep cycle.*
- Offers 100 mg of anthocyanins (antioxidants) per serving.

In addition to Cherry-Flex liquid, FruitFast is also producing a mixed berry blend as well as Wonderful Pomegranate. Each liquid contains no added sugar, sweeteners, preservatives or fillers.

“This is one hundred percent natural,” says deTar, “nothing has been added.”
